

Become a Certified Green Professional (CGP) in your area

The future of residential construction is green.

What is a CGP?

Certified Green Professional (CGP) is for single family builders, multifamily builders, remodelers, developers, land planners, architects and designers, energy raters, home inspectors, utilities staff, product manufacturers and suppliers. The CGP is awarded after 24 hours of course work and fulfillment of graduation requirements.

Curriculum and Other Requirements:

- √ Complete 2 courses:
 - Green Building for Building Professionals (2-day course)
 - Business Management for Building Professionals -OR- hold a current NAHB designation
- √ Have a minimum of two years of building industry experience
- √ Adhere to the CGP Code of Ethics
- √ Complete and submit the graduation application and fee
- √ Fulfill annual renewal fee
- √ Fulfill continuing education requirements every three years

CGP Graduates are able to:

- √ Locate and design green building development sites.
- √ Control moisture and durability for each component of the building envelope effectively.
- √ Employ resource-efficient materials to achieve comfortable, safe and sustainable buildings.
- √ Strategize ways to meet, exceed and verify green building energy efficiency requirements.
- √ Implement indoor and outdoor water conservation practices.
- √ Achieve indoor air quality.
- √ Consider green building objectives in a remodeling project.
- √ Explain a homeowner's and builder's role in effective operation and maintenance of a green home.
- √ Apply successful business management, marketing and sales strategies to sell green.

Administered by the Indiana Builders Association in conjunction with the NAHB University of Housing.

Certified Green Professional (CGP) Registration Form

Green Building for Building Professionals

This two-day course for building professionals discusses strategies for incorporating green-building principles into homes without driving up the cost of construction. Students will learn how green homes provide buyers with better value, lower energy costs, lower maintenance, better indoor air quality and better long-term value. Techniques are also discussed for competitively differentiating your home products with increased indoor environmental quality as well as energy and resource efficiency. *Approved for the CGB, CGA, GMR, and CGP designations.*

Business Management

This course will give you a solid foundation in those best business practices so valuable to smaller businesses: planning, organizing, staffing/directing and controlling. *Approved for the CGB, CGR, CGA, CGP, and CAPS designations. NAHB designation holders are exempt from completing this course to earn the CGP designation.*

Class dates

- Dec. 8 - Green Building (Day 1)
