INSTRUCTIONS FOR FIRMS APPLYING FOR CERTIFICATION TO CONDUCT LEAD-BASED PAINT ACTIVITIES AND RENOVATIONS

Firms must apply to the U.S. Environmental Protection Agency (EPA) to be certified or recertified to perform or offer to perform lead-based paint activities or renovations in states, U.S. territories, and all Indian tribal land(s) in any one EPA Region where EPA implements the lead-based paint certification program. If EPA does not administer the certification program in an area where a firm wishes to work, the firm must apply directly to that state, territory, or Indian tribe for certification. **EPA has up to 90 days** after receiving a complete request for certification to approve or disapprove the application.

Firms must become certified for lead-based paint activities to conduct abatements, inspections and risk assessments. Firms must become certified under the Renovation, Repair and Painting Rule to conduct renovations and post-renovation dust sampling.

These instructions supplement OMB approved form No. 2070-0155, *Application and Instructions for Firms*. Please note that you must use a separate form for each application type (i.e., initial certification, re-certification, amending certification, adding jurisdictions, or replacement of a certificate).

How to Apply for Initial Certification

Firms submit their application and payment by mail by doing the following:

- Complete, sign, and date EPA form 8500-27 (Rev 08/09). The form can be filled out by hand or by using a fillable form on your computer (<http://www.epa.gov/lead/pubs/firmapp.pdf>).
- Calculate the appropriate fee using the fees schedule provided in these instructions.
- Print "*Lead Program User Fees*" on the check or money order for the fee and mail it with your application to the following address:

U.S. EPA
Lead User Fees
P.O. Box 979072
St. Louis, MO 63197-9000

How to Apply for Re-certification

Firms must be re-certified every three (3) years for lead-based paint activities and five (5) years for renovations. To ensure that your firm will be re-certified before its current certification expires, you should submit a re-certification application well before the expiration date. For re-certification, complete all sections of the application and follow the mailing instructions described in the "Initial Certification" section of these instructions.

Combined Applications

Firms can apply for certification under the Lead-based Paint Activities Regulations and the Renovation, Repair, and Painting Rule on a single application for a single fee of \$550. For Tribal government entities, the fee is \$20. Firms that apply on separate applications will have to pay the appropriate fee for each. The lower fee would only apply when a single firm applies for both certifications on the same firm application in a State or Tribe where EPA implements both programs.

Amended Application

Any change to the information reported to EPA in a firm's most recent certification application must be reported in an amended certification application. There is no cost associated with the submission of an amended certification.

Amended applications must be sent to the following address:

U.S. EPA
P.O. Box 14417
Washington, DC 20044-4417

Replacement of a Certificate

To replace a certificate, complete only sections A (General Information), B (Applicant Information), and E (Certification Statement) of the application and follow the mailing instructions described in the "Initial Certification" section of these instructions.

Incomplete Application

If any components of your application are missing, your application will become inactive for a period not to exceed 30 days until the application is made complete. If you do not complete your application, EPA will return the application package. You may apply again with a complete package. Please call 1-800-424-LEAD to find out if your application is complete.

Firms Completing Applications for Individuals Under Lead-based Paint Activities

If the firm is assisting in completing applications for individuals who are applying for certification under lead-based paint activities, please be aware of the following:

- Individuals must have an address and phone number different from the firm's.
- Individuals must sign and date the application.
- Individual's name, and discipline should appear on the front of the application fee payment (check or money order), even if it is hand-written, if the firm pays for the individual.
- EPA forwards all correspondence to individuals who have signed the application attesting to their willingness to comply with the work practice standards found at 40 CFR §745.227 and/or at 40 CFR §745.85.
- EPA forwards copies of the individual's approval letter and certificate to the firm upon written request of the applicant; however, the approval letter, identification badge, and certificate remain the property of the individual.

Fees

The fee for applying for certification, re-certification, and other requests is listed in the following schedule. It is important that you:

- Calculate fee based on the number of EPA-run jurisdiction(s) in which you plan to operate.
 - a) If applying for **lead-based paint activities** certification, submit a \$35 dollar fee each additional EPA-run state or territory, or all Indian tribal land[s] located in each EPA Region, (e.g., if applying for certification in multiple Indian Tribal lands located in Region 5 and Region 7 you must pay a \$35 fee per Region, or a total of \$70).
 - b) If applying for **lead RRP** certification, there is **NO** jurisdictional fee – the certification or re-certification fee is a national certification for all jurisdictions where EPA administers the program.
- Write your total fee amount in section A of the application, even if you attach additional sheets of paper listing additional EPA-run jurisdictions.
- Make the check or money order payable to **U.S. Environmental Protection Agency**. Other methods of payment include wire transfer, electronic funds transfer, and, for government payers only, on-line payment agency collection (OPAC).
